Mechanical Technician

■ Demonstrative Skills

- Sizing
- Mechanical Engineering
- Management
- Materials Science
- Industrial Automation
- Electricity
- Production management
- Production (on machine tool)

■ Employment History

- **July-August 2008:**

SACFEL: (*Fruit And Vegetables Trading Company*)

At first, I was engaged as a **forklift truck operator**. But, quickly, my **language skills** made me the only employee of the company to be able to talk with the maker of the fruit sorting machine.

I became the **maintenance technician**, and I was in charge of the machine optimisation and on-site maintenance. I had to go at the producer's concern to visit the machines and to repair them.

Another mission that was given to me was to repair a broken forklift body, which was the occasion for me to test my skills with **composite materials**. This makes the company save nearly **3500 Aud**.

I've also repaired a road-sweeping machine. The ball bearings were completely filled and destroyed by melted plastic. I had to change them.

- **January 2008(Internship):**

GOUPIL Industrie: (*Electric vehicle manufacturer*)

Work in a **research consultancy** as an intern, on an electric vehicle frame. I was in charge of the frame extension and mass distribution study. I've also done some plan update.

I conducted research about EU legislation for a new vehicle certification.

- **July-August 2007, 2006 and 2005 :**

SACFEL: (*Fruit And Vegetables Trading Company*)

I was engaged as forklift truck operator and warehouseman.

2M PRIMEURS (2007 only): (*Melon Trading Company*)

I was working on the melon preparation and packaging.

Education and training qualifications:

- **2007-2009:**

Engaged in a two-years course in **Mechanical Engineering** at the Technological Institute in Tarbes (France) (Equivalent of a bachelor).

Prototype Development: Design and production of a recyclable waste Compactor.

- **2006-2007:**

Engaged in a first year of a five-years course in **Mechanical Engineering** at the Engineering School of Tarbes (ENIT, France).

- **July 2006:**

Scientific High School Certificate (Baccalauréat).

Skills:

- **Language skills:**

- **English:** Fluent
- **French:** Mother Tongue
- **Spanish:** School level

- **CAD:** Pro Engineer, CATIA, Solidworks

- **CAM:** TopSolid 2007

- **Programming:** C++, Visual Basic, MS SQL

- **OS:** Linux, Windows

- **Office:** Microsoft Office, OpenOffice

- **Management:** Microsoft Project

Leisure Activities:

Sport: Mountain Bike, Skiing, Jogging.

Internet.

Computer Science: Website administration
(<http://www.gromain.info>), Programmation,

Other: Electronics,

Tutoring with 11-15 yo children.

Referees:

Contact details available on request.

Geneviève Isson: English Teacher at the Technological Institute of Tarbes.
